

Guided Eco-Fieldtrips

Meet knowledgeable Florida Aquarium instructors at an offsite location for an immersive exploration of a local Florida habitat! Families welcome!

**Oak Hammock Hike
Circle B Bar Ranch**

November 17th 10AM-1PM

Search for rare migratory birds, otters, armadillos, owls & other wildlife using binoculars & field guides.

**Beach Exploration
Picnic Island**

January 26th 10AM-1PM

Identify mangroves & beach plants. Search for living marine creatures. Use a seine net & plankton net.

**Springs Exploration
Crystal Springs**

March 29th 10AM-1PM

See a spring in action as you identify wetland plants, birds & butterflies.

Anatomy Labs

Join a Florida Aquarium instructor for a unique look at the anatomy of an aquatic animal! Ages 6+

**Sea Star Dissection
December 15th
12:30-1:30PM**

Explore the fascinating anatomy of invertebrates & look inside the arms of a sea star!

**Frog Dissection
February 23rd
12:30-1:30 PM or
2:30-3:30PM**

See the inner workings of a frog as we examine their circulatory & digestive systems.

About Our Homeschool Programs

Programs feature exciting activities full of tactile experiences!

All classes are taught by our expert staff of full-time informal science instructors!

Class size limited to 15 to encourage student-parent, student-teacher & student-student interactions. Classes include live animal encounters, story time & more! Class outlines provided for each class; great for portfolios!

Onsite Program Fees

Members- \$8 per student

**Non-Members- \$16 per student
(includes admission for the day)**

Eco-Fieldtrip Program Fees

Members- \$10

Non-Members- \$12

Homeschool Programs Ages 9-11

Let your little fish school in an environment that is designed to encourage learning through experience. Play games, flex your mental muscle & meet new friends who have two legs, four legs or more!
