

Traveling Programs

Water Wheels: We Come To You!

The Water Wheels program is a favorite of many teachers. It provides students with a hands-on opportunity to learn about animals and environmental science right at their school.

Students are more likely to remember lessons when they can touch, see and feel animals.

- Available year-round
- Pre-K 30-40 minutes, all other ages 45-60 minutes
- \$195 for first program/\$150 for each additional program; same day, same site/plus mileage within 75 miles of Tampa. "Sharks!" price is \$300 and \$250 for a second program
- Maximum of three programs per day, maximum of two programs per day for Beach Buddies, Basic Beach Biology, and Sharks!

Our teachers loved the Water Wheels program. The Aquarium's instructors and animals came to our school, which made it easy and convenient for us. The experience was also unique and memorable for our students!

-Lynn McDaniel, Middle School Teacher

Program/Price	Shows Per day	Pre-K	K-2	3-5	6-8	9-12

Wild Wetlands \$195/\$150 45-60 minutes	3			🐟		

Traveling Program Descriptions

Adaptive Advantage

Grades K-5

Up to 125 students

What's the advantage to having special adaptations? Find out as students compete with animals to learn why they are the way they are. Get to know some of the most interesting LIVE animals during this educational, interactive and fun competition about adaptations.

Animal Armor

PreK

Up to 25 students

Come meet LIVE animal ambassadors and find out how each one uses its feathers, spines or scales for protection. Then, reach into our mystery boxes to challenge your senses and explore different types of animal armor.

Aquatic Field Studies:

What's in Your Water?

Grades K-5

Up to 25 students

Have The Florida Aquarium visit your school, and we'll teach your students about aquatic habitats and bring all the necessary equipment. Studying a water system will give your students a whole new outlook on water and what lives in it. You pick the location!

Basic Beach Biology

Grades 1-5

15-40 students

Want to bring the beach to your school? For this FUN and educational program, we've gathered LIVE beach creatures for a hands-on exploration of beach life. Discover the importance of amazing invertebrates during this exciting animal encounter.

Beach Buddies

PreK -K

Up to 25 students

Bring the beach to your school! Get to know interesting LIVE animals that call the beach their home. Discover how some amazing beach creatures live as you explore who lives at the beach.

Sharks!

Grades 3-12

15 - 40 students

Come face-to-face with a live shark after students participate in fun shark related activities. After students dispel myths and enhance shark knowledge, they will meet a LIVE shark!

Wild Jobs

Grades 6-12

Up to 40 students

Interested in a career working with animals? Or maybe you would just like to know a bit more about what an animal biologist or marine scientist does each day. This program will provide active learning opportunities, live animal discoveries, and access to a knowledgeable Aquarium Instructor who works with animals.

Wild Wetlands

Grades 3-5

Up to 125 students

What's wild about wetlands? Engage students with some of Florida's wild and beautiful creatures. Come face-to-face with interesting critters found in Florida wetlands. Learn about wetlands ecology with the help of these awesome animals through this interactive, educational and FUN program.
